

Covid-19 crisis provides restructuring opportunity

Posted On Nov 30, Posted by [Xperience Archery](#) Category [Uncategorized](#)

Like most businesses Covid-19 has had a massive impact on the way we operate and the customers we support.

In the short to medium term with the difficulties posed by providing a mobile service to schools and other clients we have opted to run our business using Deer Park Archers facilities as our base home.

We will spend more time working on 1:1 coaching and more time working with all clients in the outdoor or covered shooting area facilities.

The services we can provide will of course vary with the local regulations at that time.
